# JOSIE DARLIN'

ALIAS

Cowboy Action offers so much more for women than any other shooting discipline.

I have the opportunity to pack up my period clothing and guns and travel to matches in Canada and the States to satisfy my thirst for history and adventure. At the large matches in the States I know I will find "Sutter's" row to buy new additions for my wardrobe, which may include a fancy period dress and pretty hat for the banquet held after these matches. Seeing from 200 to over 1000 people dressed cowboy is just mind boggling. A very large portion of them are women.

I get to fantasize my way through each "staged scenario" shooting a pistol calibre rifle, 2 single action pistols and a shotgun while aiming at steel targets shaped like buffalo, cowboys, coffins, steers, coyotes, you name it, putting 100 or more rounds down range. And when the shootin's all done and the guns packed up then everyone enjoys a meal at the bunk house, sharing laughter, and plans for the next road trip to another amazing day on the range "aimin' to have fun".
